THE LUNA EXPEDITION : SHIPWRECKS AND SETTLEMENT

We always have a great program for the PAS annual Bar-B-Que and this year is no exception!

Since the discovery of the 1559 Emanuel Point I and II shipwrecks, underwater archaeology at the site has been ongoing. These sites have been the location of many underwater hours of work funded through the UWF

Archaeology Institute and several grants from the State of Florida. Now using a Special Category Grant from the Florida Bureau of Archaeological Research (BAR), excavations have continued through the winter when weather permitted. **Dr. Greg Cook** will up date information about the present excavations and progress being made.

The artifacts recovered from these two shipwrecks have been a great help in identifying the artifacts from the newest discovery in the area—the Luna settle-

the implications of the artifacts that have been recovered each week.

If you have not made and paid for your reservation, the time is NOW since the **deadline is April 4**. There was a reservation form in the last newsletter—tickets are \$10 each and there are a few seats left.

The Bar-B-Que will be held on the UWF campus at the Argo Athletic Club (located near the visitor's center at the campus entrance) at **6 PM on April 12**. Hope to see you there.

There will be NO PAS membership meetings through the summer. Watch the newsletters and Facebook for up to date information about summer activities and plans
